"ENLIST 'EM"—MARSHALL.

Vice-President has Plan for Those of Us Who Want War.

CHICAGO, March 16.—The citizens who think the United States should take a part in the war should be made to enlist in the army before being allowed to spread their doleful predictions broadcast, Vice-President Marshall said here today. The Vice-President, Mrs. Marshall, Franklin K. Lane, Secretary of the Interior, and Franklin D. Roosevelt, assistant Secretary of the Navy, will leave here tomorrow for San Francisco to attend the Panama-Pacific Exposition.

TENANT FARMERS ON INCREASE.

GOV. FERGUSON OF TEXAS CRITICIZES SYSTEM OF MORTGAGES.

DALLAS (Tex.) March 16.—Witnesses testifying today before the opening session of the hearing on the land situation in the United States, being conducted here by the United States Industrial Commission, declared there had been a general increase in the number of tenant farmers as compared with land owners, both in the Northwest and Southwest farming sections.

Criticizing the credit system in southern farming communities where by land tenants give small town merchants chattel mortgages on crops for advances for food and supplies, Gov. Ferguson of Texas, said that some of the chattel mortgages were cruelly drawn. He added: "But the tenant cannot object to the price. He cannot buy any place else. He has to accept the price or starve."

Tenant farmers bring Gov. Ferguson said, have small opportunity to become home owners.

TAKE OUR MEDICINE AND HOLD THE PEACE.

Wilson's Policy on the English Blockade is Definitely Formulated.

Determination to Present Claims for Damages After the War for Any and All Harm Done to Our Shipping as a Result of Britain's Measures of Retaliation Against Germany.

BY JOHN CALLAN O'LAUGHLIN.
[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

WASHINGTON BUREAU OF THE TIMES, March 16.—The United States will kick but it must swallow its own medicine. When the end of the war comes it will have a big claim for damages to present and it will insist upon payment.

The above expresses, in the language of a high official of the administration today, the policy of President Wilson with reference to the new-fashioned "blockade" announced in the British orders in council, issued yesterday.

In the note accompanying the orders, which will be made public on Thursday morning, Great Britain justifies her action upon these grounds:

First, that the declaration she has made constitutes in fact a blockade.

Second, that while a blockade exists Great Britain and her allies have decided not to impose the extreme penalty of confiscation of the vessel for violation, but will permit her to go free, and also will either restore or contraband goods which the ship will be required to discharge, or sell them, and determine when peace arrives how the proceeds shall be distributed.

Third, that the United States Supreme Court in the *Adula* case established the principle that the act of sailing in defiance of a declared prohibition subjects the neutral vessel to seizure and condemnation.

Fourth, that neutrals may guard against the seizure of their vessels or their goods by announcing they will not trade with Germany.

Fifth, that Great Britain has reluctantly adopted this course as an act of reprisal against Germany in consequence of the indiscriminate and murderous warfare that country has made upon all trade, belligerent as well as neutral.

Whether the argument made by Great Britain is sound or not will make no difference in the final analysis. She and her allies have determined to stop all trade with Germany. In this connection the following quotation from the letter of Secretary Bryan to Senator Stone, chairman of the Senate Foreign Relations Committee, is worth repeating and remembering:

"The fact that the commerce of the United States is interrupted by Great Britain is consequent upon the superiority of her navy on the high seas. History shows that whenever a country has possessed that superiority our trade has been interrupted and that few articles essential to the prosecution of the war have been allowed to reach its enemy from this country."

WHAT CAN WE DO?

One of the directing officers of the navy said this afternoon:

"What can we do? (He placed emphasis on 'can.') If we go to war who

(Continued on Second Page.)

OTHER NEUTRALS PROTEST AT BRITISH BLOCKADE.

WASHINGTON, March 16.—Chancellor Van Rappard, Netherlands Minister, informally opened negotiations at the State Department today to determine what action may be taken by the United States and the Netherlands to obtain an amelioration of the restrictions laid down in the British order in council.

Paul Ritter, the Swiss Minister, inquired of Secretary Bryan today what official information his government had received concerning the British order in council and other notes setting forth the position of the allies in the matter of the blockade.

President Wilson indicated to callers today that a strong protest would be made by the United States government against the action of Great Britain and her allies.

BRITISH LINER CORSICAN FLOATS AMERICAN FLAG.

MONTREAL, March 16.—The Stars and Stripes floated from the mast of the liner Corsican while she was steaming down the Mersey on her way from Liverpool to Halifax on her last voyage, because two German submarines were said to be waiting in the waters close by, according to David McKay of the Canadian Pacific Railway freight department.

The Corsican, an Allan liner, sailed from Liverpool on March 8 for Halifax and St. John, N. B. She arrived at Halifax yesterday.

BRITISH CRUISER IS HIT; NINETEEN MEN KILLED.

LONDON, March 17.—A Tenedos dispatch to the Daily Telegraph, dated March 15, says:

"The British cruiser Amethyst was fired upon by field artillery brought to bear from an unexpected spot. She was hit by several shells at close range and had nineteen men killed and several wounded. The vessel is damaged, but her fighting efficiency is unimpaired."

An Athens dispatch to the Telegraph says that twenty-two men were killed on the Amethyst and thirty were wounded.

PAVE WAY FOR DEMAND ON SINKING OF FRYE.

WASHINGTON, March 16.—The United States will make its formal representations to Germany on the sinking of the American ship William P. Frye by the cruiser Prinz Eitel Friedrich as soon as certain necessary facts regarding the destination of the Frye's cargo of wheat are obtained.

President Wilson said today that the informal conferences between State

He Sank Our Ship.

Of the German converted cruiser Prinz Eitel Friedrich, now at Newport News, who sank the American sailing ship Frye. The act is the subject of diplomatic exchanges between Washington and Berlin.

HOW THE PENNSYLVANIA COMPARES WITH OTHERS.

THE U.S.S. Pennsylvania, launched yesterday at Newport News, is the largest dreadnaught in the world, and the following table gives an idea of her size, speed, armament and complement when compared to the largest warships in the British, German and Japanese navies:

Pennsylvania	Queen Elizabeth (British)	Erzatz Worth (German)	Fuso (Japanese)
Displacement—			
11,400 tons	27,500 tons	28,000 tons	30,000 tons
Speed—			
21 knots	25 knots	23 knots	22 knots
Main battery—			
12 14 in.	8 15 in.	8 15 in.	12 14 in.
Second battery—			
22 5 in.	16 6 in.	16 6 in.	16 6 in.
Complement—			
865 men	900 men	1000 men	1100 men

Capital.

SWEDISH ENVOY PROTESTS AT MEXICAN OUTRAGES.

Scandinavian Minister Declares Situation is Deplorable and "Ghastly"—Big Exodus of Foreigners is Beginning, Railway Accommodations are in Great Demand. Indemnity to be Paid, Says Wilson.

WASHINGTON, March 16.—Conditions in Mexico City as well as Manzanillo gave officials concern today.

In the Mexican capital large numbers of Americans and other foreigners asked the State Department today, through the Brazilian Minister, to obtain transportation for them to Vera Cruz. The exact number wishing to leave, and the immediate reason—whether renewed disturbances or weariness of isolation and business stagnation—was not known here.

Secretary Bryan announced that trains had been requested both from the Villa-Zapata and from the Carranza authorities.

Urgent representations were made during the day to Gen. Carranza concerning his troops at Manzanillo, whose activities have been causing Americans and foreigners much apprehension. The American Consul was instructed to keep in close touch with the commander of the cruiser Cleveland.

The Swedish Minister laid before the State Department today disquieting dispatches received from the Swedish legation in Mexico City. Conditions there since the re-entry of the Zapata troops were described by the Swedish Charge d'Affaires as deplorable and "ghastly." His dispatch said that the home of Gustav Lundholm, a Swedish subject, had been despoiled by the Zapatistas and that another Swede had been robbed in the street at noon yesterday. The house of a third Swedish subject which had been looted by the Carranza forces was again entered and money and weapons were demanded.

The Swedish Minister informed the State Department also that the government of Sweden intended to demand full indemnity for the murder of John Eklund, a Swedish gardener, killed by Obregon's troops before the evacuation of Mexico City.

Little has come from the Brazilian Minister at Mexico City to indicate that the Zapata Garrison is not preserving good order.

President Wilson expressed himself as satisfied that those guilty of the murder of John B. McManus, an American citizen, would be punished, and that a suitable indemnity would be paid.

OFFICIAL ANNOUNCEMENT.

The State Department's official announcement on the situation at Manzanillo follows:

"As the Manzanillo district is under the control of the Carranzistas, the authorities the representative of the Department of State at Vera Cruz has been instructed to call Gen. Carranza's attention to the seriousness of the situation in that district and to urge that he take immediate steps to insure adequate protection to foreign interests. The American Consul at Manzanillo has been instructed to make the necessary representations to the local authorities and to confer fully with the commander of the Cleveland."

The British Consul at Manzanillo

GREATEST ON EARTH.

The New Addition to Our Navy.

The Pennsylvania Launched at Newport News in a Class of Her Own.

Prinz Eitel and Her Commander Join in the Salute to the Monster.

Daniels Proclaims that We Were Never Nore Ready for Eventualities.

NEWPORT NEWS (Va.) March 16.—Moored to a pier at the shipyard here tonight lay the giant red hull of the new battleship Pennsylvania—the world's greatest fighting craft—awaiting completion after her successful trip today from the stocks to the waters of James River.

Mechanics were back at work on the vessel almost as soon as tugs could take her in tow when she was safely afloat, the builders seeing to it that not a minute was lost on the task of preparing her for commission not later than February 24, 1916.

Secretary Daniels of the Navy and Gov. Brumbaugh of Pennsylvania headed the distinguished company on the launching stand to see the Pennsylvania take the water. Miss Elizabeth Kolb of Germantown, Pa., named the ship and broke a bottle of champagne against the bow after Episcopal Bishop Berry of Pennsylvania had delivered a prayer.

Joining with the noisy welcome given the new dreadnaught by the whistles of the Presidential yacht Mayflower and harbor craft and the shouts of 15,000 spectators, was the hoarse shriek of the siren of the German commerce raider, Prinz Eitel Friedrich, tied up at a nearby pier. Commander Max Thierichens, the German captain, was one of the guests on the launching stand.

This afternoon a banquet was given at Old Point Comfort by the shipbuilding company in honor of the sponsor and Secretary Daniels was the principal speaker.

AS TO THE WAR.

Commander Thierichens of the sea raider sat in full uniform with the official party on the platform amidled with American naval officers throughout the ceremonies.

A gray-haired woman approached the German commander as he stood under the towering bow of the Pennsylvania, and grasped his hand. She was Mrs. M. F. Thomas of Beacon, N. Y., a member of the Society of Friends.

"Commander," she said, "I belong to a society which believes that persons should love others as much as themselves. Do you in Germany love us as much as you love yourselves?"

The captain smiled, but did not answer as Mrs. Thomas continued: "Don't you believe that we will soon have peace? Isn't it time you men stopped killing each other?"

"Madame," replied the German commander, "we all believe in peace, but this war had to be. It was a necessary war for the peace of the world. After this war there will be a long peace. But at the end of the long peace there will come another war."

The German naval officer joined in the cheering as the dreadnaught slid into the sea.

BY SECRETARY DANIELS.

Secretary Daniels, answering critics of the unpreparedness of the navy, declared that never before in its history was the navy in better shape to fight. He spoke at a luncheon given in his honor after the launching of the new super-dreadnaught Pennsylvania.

"There never was a time," said Secretary Daniels, "when the navy was so powerful, so ready, so efficient as now. Nor has there been a year when the fleet has given so much time to target practice, maneuvers, war games and practices as the present year. Skill, modern adaptation, new tactics are being carried out day and night. The motto of the navy of today is 'Training, training and more training; practice and more practice.' Nothing else keeps ships and men fit. Today they are fit and ready."

"No nation," he said, "has placed such substantial faith in the deadly power of under-sea craft. Within a comparatively short time, when our mighty fleet lies in Hampton Roads ready to traverse the ocean, it will be accompanied by submarines which can make twenty knots and send hurtling through the water torpedoes capable of sinking the leviathan ships any nation can construct. The Sixty-third Congress and the wisdom to see that the backbone of any naval fighting machine is the great ship able to keep the ocean when it is storm-tossed."

Secretary Daniels said that he had been directed by President Wilson to say for the present that he was proud of the new Pennsylvania and hoped it would never be called upon in war to demonstrate its prowess.

His hope was expressed by the Secretary that as the Pennsylvania goes forth as the symbol of American justice and power, her mission would be to help forward lasting peace, "for," he added, "she is the embodiment in effectiveness of this powerful nation which believes in peace, but also believes with Hosea Bigelow:

"If you want peace, the thing you've got to do is to show you're up to fighting."

"But though up to fighting" too, it

THE WEATHER BACK EAST.

Sudden Cold Spell with Snow Drops Over the Eastern Country, Canada Reporting Snow.

CHICAGO BUREAU OF THE TIMES, March 16.—Chicago's temperature dropped below freezing last night, and was accompanied by a high gale and snow flurries.

The weather was generally colder in all directions, going below zero in Western Canada, New Orleans was 16 deg. colder than Los Angeles. Excepting Miami, Fla., and El Paso, Tex., all the South was cold.

Eastern Canada was snowed, and there were snow flurries in several Middle Western States. Other temperatures:

HARBOR MONEY FOR CALIFORNIA.

THIRD DISTRICT ALLOTMENTS ARE COMPLETED.

Dredging Work on Pinole Shoals will be Begun When the Necessary Machinery is Shipped from New York City by Way of the Panama Canal.

WASHINGTON BUREAU OF THE TIMES, March 16.—River and harbor allotments from the \$25,000,000 lump sum appropriated by Congress at the last session have been made by the Board of Army Engineers for California as follows:

Pinole shoals, \$80,000; two new dredges for work in Pinole shoals have been completed in New York City and will soon be shipped to California via the Panama Canal.

For maintenance of seven-foot channel in the Sacramento River, \$25,000. Two dredges will be kept in operation at the mouth of the Sacramento for a year. For Napa River, \$75,000.

Necessary work to maintain the Stockton-Mokelumne channel will be made of Suisun Bay from Martinez to Antioch and from Napa City to the source of the Napa River.

These allotments are only for the Third District, and allotments for the other districts have not been made yet.

THE ALL-AMERICAS AS FINANCIERS.

CLOSER RELATIONS AIMED AT BY UNITED STATES WITH HER NEIGHBORS.

WASHINGTON, March 16.—Secretary Bryan made public tonight the text of cablegrams sent through diplomatic representatives of the United States to nations of South and Central America inviting them to send delegates to the Pan-American financial conference here May 10.

Informal assurances that the invitations will be accepted already have been given. Mr. Bryan's message reads in part as follows:

"The conference will be held with a view to establishing closer and more satisfactory financial relations between the republics of America, and it is hoped that the Ministers of Finance of the respective governments will be able to attend as one of the three delegates and that the delegates may be versed in finance and in banking and business problems."

Montana Invites Wilson. WASHINGTON, March 16.—An embargoed copy of a joint resolution adopted by the Montana Legislature asking President Wilson to visit that State if he goes to the San Francisco exposition, was presented to the President tonight by Senators Walsh and Myers. The President is still uncertain when he will be able to make the trip.

FIFTH WHEEL ON COACH.

Wilson's Colorado Coal Commission Still Cooling Its Heels Looking for Chance to Invest.

WASHINGTON, March 16.—President Wilson's Colorado Coal Commission, consisting of Seth Low, Charles W. Mills and Patrick Gilday, has postponed its visit to Colorado until autumn. The commission reported to the President today that seventy-one of the operators, producing 61 per cent of the coal mined in Colorado.

In a joint letter, advised that "no useful purpose can be served by the commission going to Colorado, and the temper in which they write says even more eloquently than their words that with them 'the dead past' has not yet buried its dead."

The report expresses satisfaction that if the Colorado Legislature will put the State in the front rank of the States legislating along these lines.

Next Peace Conference. WASHINGTON, March 16.—It was announced from the headquarters of the American Peace Society today that the fifth American peace congress will be held in San Francisco in September or October next.

"CURIOSITY ONCE KILLED A CAT."

LOCAL CORRESPONDENCE. SAN BERNARDINO, March 16.—Raymond Fortier, aged 14, son of J. Hector Fortier, pulled a string he saw hanging down from the Home Telephone building this afternoon and ten pounds of cement plaster crashed down forty feet from the cornice to his head, blinding the debris struck Thomas O'Connell, a barefoot boy, on the toe, and crushed it. Both lads are severely hurt.

Prof. Mathews went to Japan as the representative of the Federal Council to promote harmony between the United States and Japan. He expressed himself as well pleased with the attitude of the Japanese toward Americans.

Prof. Mathews will leave for his home in Chicago tomorrow.

Greatest on Earth.

(Continued from First Page.)

Necessary," he continued, "there never was a time when it is so important for our country to set the wrong world an example of peace. May we not hope that the day is far distant when the nations at war will so lift our good offices in leading the way to honorable peace?"

The Secretary said the country was fortunate in that the mantle of peace and peace of the martyred Lincoln had fallen upon the shoulders of President Wilson to guide the ship of state in the present period of peril and storm.

While the British monster carries larger guns, her main battery is only two-thirds the size of that of the Pennsylvania, in number and the American battleship is 3000 tons greater in size.

The main battery of the Pennsylvania will consist of twelve 14-inch, 46-caliber rifles, set in four turrets, three guns to a turret, the plan of big-gun arrangement adopted in the sister ships which preceded her, the Nevada and Oklahoma.

Her tonnage measurement is 31,400, against 27,400 for the Nevada and Oklahoma, and the Queen Elizabeth. The latter, however, carries eight 15-inch rifles, set two to a turret, while the Nevada and Oklahoma have ten 14-inch rifles each, in two three-gun and two two-gun turrets. In all these ships, including the Pennsylvania, the turrets are all on the center line to concentrate their fire on either broadside.

Five battleships of the British navy yet to be launched will have less tonnage than the Pennsylvania, the ships of the Royal Sovereign class being of 24,500 tons displacement, and none will equal the Pennsylvania in armament. Each is designed to carry eight fifteen-inch guns.

The cruising radius of the Pennsylvania will be considerably increased by the fact that she will be equipped for oil fuel exclusively, and will have a capacity of 2325 tons of fuel oil. The Queen Elizabeth has a capacity of 4000 tons of oil because of her high-speed requirements.

From her enormous main battery the Pennsylvania will be able to hurl, with the pressure of a single spring lever, seven and one-half tons of steel on either broadside. In addition she will carry a secondary battery of twenty-two five-inch rifles for defense against torpedo boats. She will be fitted also with four submerged twenty-one-inch torpedo tubes and her ship's company will be composed of sixty-five officers, 1631 enlisted men and seventy-four ship mechanics.

ures 604 feet over all and ninety-seven feet beam and her mean draft is twenty-eight feet, ten inches, although the limit is size for the Panama Canal and present navy dry docks. There are only few docks in the world which can receive her, and she could enter many busy harbors except under most favorable conditions of tide and wind.

When completed the Pennsylvania will have cost the government more than \$13,000,000. She will be ready for commission, under contract, by February 25, 1916. Her keel was laid October 27, 1913.

ENORMOUS SIZE.

The enormous size of the new ship and the startling rapidity with which battleship construction has developed, even before the great war, is indicated by comparison of the Pennsylvania with the British battleship Dreadnaught, the first of the all-big-gun ships in any navy.

The Dreadnaught was designed to displace 17,000 tons, but actually is considerably larger. In the main battery are ten twelve-inch guns with a broadside fire of six guns and her trial speed was 21.2 knots.

The Pennsylvania will be equipped with turbine engines, as is the Oklahoma, the Queen Elizabeth and all of the newest English, German and Japanese battle craft. The Nevada will be operated by reciprocating engines, while the California, of the 32,000 class, will be driven by electricity.

One of the other two American battleships of the California class will have turbine engines and the other reciprocating in line with the Navy Department's policy of not entirely abandoning the reciprocating type until a thoroughly satisfactory marine turbine is found. If the experiment on the Pennsylvania with electric drive, current to be generated by steam turbines running at high speed, is successful, the engine problem may be solved. It already has proved satisfactory in a navy collier and the experiment with the California only needs to determine whether it is equally efficient in high power plants.

AUTOISTS ARE KILLED.

Two Prominent Stockmen Riding Near Butte are Struck by a Passenger Train.

Butte (Mont.) March 16.—T. F. Kelly of Butte, and William Kelly of Piedmont, Mont., prominent stockmen and brothers of ATTY. D. M. Kelly of Montana, were killed today when their automobile was struck by a westbound passenger train near Whitehall station, about forty miles east of Butte. A survey behind a slight elevation of ground obstructed a view of the road near the crossing, and according to the engineer, he did not see the automobile until his automobile was upon it.

WEEKLY FLAG-DRILLS.

A Measure to Require Them in the Schools of Washington State is Signed by the Governor.

OLYMPIA, Wash., March 16.—The bill providing for weekly flag drills in all public schools was signed yesterday by Gov. Lister. He also signed the bill requiring students in the State university to pay tuition fees.

THAW SAVED FROM ASYLUM.

QUICK WORK BY ATTORNEY KEEPS HIM OUT OF MADHOUSE.

Justice Page Orders Him Sent to Matteawan but Habeas Corpus Issued by Another Court Will Keep Him in the Tombs Prison Until Friday.

NEW YORK, March 16.—Harry K. Thaw will not be sent back to New Hampshire by the State of New York as his counsel demanded, but must be returned to Matteawan asylum, "unless legal papers calling for his detention in New York county are served upon the warden of the Tombs prison." Such was Supreme Court Justice Page's decision today in disposing of the formal motion to have Thaw returned to New England.

In the meantime counsel for Thaw, as if in anticipation of just such a decision, had obtained from Supreme Court Justice Bijur a writ of habeas corpus which will keep Thaw in the Tombs prison till next Friday, when he must be produced in court. It was a close call for Thaw, as plans had been considered by the State for returning him at once to his long-time residence in the hospital for the criminal insane. Asylum attendants were in the court room ready to rush him there by automobile the moment the motion for a return to New Hampshire was denied.

But the writ of habeas corpus which had been served half an hour before on Warden Hanley of the Tombs prevented this.

Sheriff Griffenhagen of New York county had heard whispers of a plot to abduct Thaw during the brief interval when he should be out of Warden Hanley's custody in going to and from the prison to the courtroom across the Bridge of Sighs. Accordingly the Sheriff armed twenty deputies with revolvers and scattered them throughout the hall and courtroom.

Many more armed deputies were sprinkled among the crowds in the courtroom.

Justice Page took occasion to comment on the scene.

QUALITY FIRST.

"This is the best one!" "I don't know which it is, but it beats them all!"

He judged simply by flavor and quality. And he was tasting

Campbell's Tomato Soup

This was an actual test made by a group of New York grocers. They prepared, according to directions, several brands of tomato soup—some of them much more expensive than Campbell's—and then undertook to pick the best one by taste alone, without seeing the label. They were expert souptasters, and they all picked Campbell's.

So would you if you made the same test. Try it and see.

Here's Your Pound of Coffee, Madam!

Here's Your 100 Grains of Caffeine, Doctor!

Same Drug—Different Form

More and more, it is becoming common knowledge that an ordinary cup of coffee contains about 2½ grains of caffeine, an irritating drug.

Because of this drug, coffee drinking frequently races the heart, interferes with digestion, upsets the nerves, and leaves one weakened and depressed. As a drug, caffeine has medicinal value, but only when administered by a competent physician.

If constant use of coffee, with its drug content, agrees with you, why—keep right on—no one should object.

But—thousands of people have rid themselves of coffee troubles, and experienced wonderful improvement in health by changing to

POSTUM

—the pure food-drink.

Postum is made of wheat and a bit of wholesome molasses. It has a fine, snappy flavour much like that of Old Gov't Java, but contains no caffeine or any other harmful substance.

Postum now comes in two forms: Postum Cereal, which has to be boiled, 15c and 25c packages; Instant Postum, a concentrated, soluble form, made in the cup instantly, with hot water, 30c and 50c tins. A delightful beverage either way, and cost per cup is about the same.

"There's a Reason" for Postum

—sold by Grocers everywhere.

PROF. MATHEWS BACK.

University of Chicago Educator Returns from Japan and Says Americans are Well Thought of.

SAN FRANCISCO, March 16.—Prof. Shaller Mathews of the University of Chicago, president of the Federal Council of the Churches of Christ in America, returned today from a trip to Japan. He left Sidney L. Quick, his companion on the trip, at Honolulu.

Prof. Mathews went to Japan as the representative of the Federal Council to promote harmony between the United States and Japan. He expressed himself as well pleased with the attitude of the Japanese toward Americans.

Prof. Mathews will leave for his home in Chicago tomorrow.

KLAMATH INDIANS APPEAL.

Wealthy Aborigines Ask that Government Grant Them Millions to Finance Their Land Allotments.

KLAMATH FALLS (Or.) March 16.—The tribal council of the Klamath Indian reservation has appealed to the Commissioner of Indian Affairs to urge a congressional appropriation of \$1,000,000 to finance the tribe in farming its land allotments. The council suggested that the government be reimbursed by the sale of timber owned by the Klamath Indians, which is estimated to be valued at twenty millions. It is proposed that the money asked be spent under the supervision of the government. It is said that the average value of a Klamath Indian's property is about \$25,000.

AS TO GUN POWER.

In size and gun power the Pennsylvania is greater even than the Queen Elizabeth of the British navy, which led the recent terrific assault of the allies on the forts of the Dardanelles.

While the British monster carries larger guns, her main battery is only two-thirds the size of that of the Pennsylvania, in number and the American battleship is 3000 tons greater in size.

The cruising radius of the Pennsylvania will be considerably increased by the fact that she will be equipped for oil fuel exclusively, and will have a capacity of 2325 tons of fuel oil. The Queen Elizabeth has a capacity of 4000 tons of oil because of her high-speed requirements.

From her enormous main battery the Pennsylvania will be able to hurl, with the pressure of a single spring lever, seven and one-half tons of steel on either broadside. In addition she will carry a secondary battery of twenty-two five-inch rifles for defense against torpedo boats. She will be fitted also with four submerged twenty-one-inch torpedo tubes and her ship's company will be composed of sixty-five officers, 1631 enlisted men and seventy-four ship mechanics.

ures 604 feet over all and ninety-seven feet beam and her mean draft is twenty-eight feet, ten inches, although the limit is size for the Panama Canal and present navy dry docks. There are only few docks in the world which can receive her, and she could enter many busy harbors except under most favorable conditions of tide and wind.

When completed the Pennsylvania will have cost the government more than \$13,000,000. She will be ready for commission, under contract, by February 25, 1916. Her keel was laid October 27, 1913.

ENORMOUS SIZE.

The enormous size of the new ship and the startling rapidity with which battleship construction has developed, even before the great war, is indicated by comparison of the Pennsylvania with the British battleship Dreadnaught, the first of the all-big-gun ships in any navy.

The Dreadnaught was designed to displace 17,000 tons, but actually is considerably larger. In the main battery are ten twelve-inch guns with a broadside fire of six guns and her trial speed was 21.2 knots.

The Pennsylvania will be equipped with turbine engines, as is the Oklahoma, the Queen Elizabeth and all of the newest English, German and Japanese battle craft. The Nevada will be operated by reciprocating engines, while the California, of the 32,000 class, will be driven by electricity.

One of the other two American battleships of the California class will have turbine engines and the other reciprocating in line with the Navy Department's policy of not entirely abandoning the reciprocating type until a thoroughly satisfactory marine turbine is found. If the experiment on the Pennsylvania with electric drive, current to be generated by steam turbines running at high speed, is successful, the engine problem may be solved. It already has proved satisfactory in a navy collier and the experiment with the California only needs to determine whether it is equally efficient in high power plants.

AUTOISTS ARE KILLED.

Two Prominent Stockmen Riding Near Butte are Struck by a Passenger Train.

Butte (Mont.) March 16.—T. F. Kelly of Butte, and William Kelly of Piedmont, Mont., prominent stockmen and brothers of ATTY. D. M. Kelly of Montana, were killed today when their automobile was struck by a westbound passenger train near Whitehall station, about forty miles east of Butte. A survey behind a slight elevation of ground obstructed a view of the road near the crossing, and according to the engineer, he did not see the automobile until his automobile was upon it.

WEEKLY FLAG-DRILLS.

A Measure to Require Them in the Schools of Washington State is Signed by the Governor.

OLYMPIA, Wash., March 16.—The bill providing for weekly flag drills in all public schools was signed yesterday by Gov. Lister. He also signed the bill requiring students in the State university to pay tuition fees.

THAW SAVED FROM ASYLUM.

QUICK WORK BY ATTORNEY KEEPS HIM OUT OF MADHOUSE.

Justice Page Orders Him Sent to Matteawan but Habeas Corpus Issued by Another Court Will Keep Him in the Tombs Prison Until Friday.

NEW YORK, March 16.—Harry K. Thaw will not be sent back to New Hampshire by the State of New York as his counsel demanded, but must be returned to Matteawan asylum, "unless legal papers calling for his detention in New York county are served upon the warden of the Tombs prison." Such was Supreme Court Justice Page's decision today in disposing of the formal motion to have Thaw returned to New England.

In the meantime counsel for Thaw, as if in anticipation of just such a decision, had obtained from Supreme Court Justice Bijur a writ of habeas corpus which will keep Thaw in the Tombs prison till next Friday, when he must be produced in court. It was a close call for Thaw, as plans had been considered by the State for returning him at once to his long-time residence in the hospital for the criminal insane. Asylum attendants were in the court room ready to rush him there by automobile the moment the motion for a return to New Hampshire was denied.

But the writ of habeas corpus which had been served half an hour before on Warden Hanley of the Tombs prevented this.

Sheriff Griffenhagen of New York county had heard whispers of a plot to abduct Thaw during the brief interval when he should be out of Warden Hanley's custody in going to and from the prison to the courtroom across the Bridge of Sighs. Accordingly the Sheriff armed twenty deputies with revolvers and scattered them throughout the hall and courtroom.

Many more armed deputies were sprinkled among the crowds in the courtroom.

Justice Page took occasion to comment on the scene.

QUALITY FIRST.

"This is the best one!" "I don't know which it is, but it beats them all!"

He judged simply by flavor and quality. And he was tasting

Campbell's Tomato Soup

This was an actual test made by a group of New York grocers. They prepared, according to directions, several brands of tomato soup—some of them much more expensive than Campbell's—and then undertook to pick the best one by taste alone, without seeing the label. They were expert souptasters, and they all picked Campbell's.

So would you if you made the same test. Try it and see.

21 kinds 10c a can

Campbell's Soups

LOOK FOR THE RED-AND-WHITE LABEL.

Here's Your Pound of Coffee, Madam!

Here's Your 100 Grains of Caffeine, Doctor!

Same Drug—Different Form

More and more, it is becoming common knowledge that an ordinary cup of coffee contains about 2½ grains of caffeine, an irritating drug.

Because of this drug, coffee drinking frequently races the heart, interferes with digestion, upsets the nerves, and leaves one weakened and depressed. As a drug, caffeine has medicinal value, but only when administered by a competent physician.

If constant use of coffee, with its drug content, agrees with you, why—keep right on—no one should object.

But—thousands of people have rid themselves of coffee troubles, and experienced wonderful improvement in health by changing to

POSTUM

—the pure food-drink.

Postum is made of wheat and a bit of wholesome molasses. It has a fine, snappy flavour much like that of Old Gov't Java, but contains no caffeine or any other harmful substance.

Postum now comes in two forms: Postum Cereal, which has to be boiled, 15c and 25c packages; Instant Postum, a concentrated, soluble form, made in the cup instantly, with hot water, 30c and 50c tins. A delightful beverage either way, and cost per cup is about the same.

"There's a Reason" for Postum

—sold by Grocers everywhere.

ASH TO EARTH ENDS LIFE AND ITS HOPE.

Who Would Fly as Beachey Flew
Falls to the Same Fate.

Picture-flight at Universal City Frank
Plunges Through Unsupporting Air and His
Drops at Thousand Spectators' Feet—Tragedy
Camera Ends All Week's Festivities.

A powerful new machine with which to take the place of the old aviator in the air adventures of the summer. He hoped to become a second Beachey, and with good promise of the achievement.

On Monday he was to make the flight and drop the bomb. A crowd of many thousands was at Universal City for the opening ceremonies, and in the late afternoon the time for the flight was announced. Aviator Stites took his machine to the take-off ground and found the air too light to lift without the lift of a wheel, and the restless crowd turned away and sought diversion elsewhere. The flight was postponed.

Yesterday he was asked again to prepare for the flight. He tried the air again and found it loose of texture and without life. President Laemmle and the other heads of the company were gathered for the scene in a crowd of more than a thousand persons.

He explained to his assistant, Kaubiers, that he would have to make the effort. So he ran his machine across the pasture to a distant rise, where the heavy air currents from the ocean found their channel, and on them he raised himself to a height of several hundred feet.

The dummy aeroplane rested on a wire cable stretched between the two hills, at a distance of twenty feet above the ground. In this snug valley the air lay dead.

Mr. Stites made several scenic circles with broad swing and then he caught the director's signal to be ready with the bomb. The dummy aeroplane was charged with a load of powder, primed with an electric spark obedient to the touch of a mechanism on the distant hill. When Aviator Stites dropped his soulless bomb, that was a dull brown wrapping of twine and cloth, the spark in the magazine beneath the dummy aeroplane was to be ignited and the explosion showing

Slips from His Biplane Seat to Death.

Aviator Frank A. Stites.

Who was ambitious, with good promise, to become a second Beachey, and was killed yesterday while making a flight at Universal City.

DOLLARS WHICH SHOUT PURPOSE.

Imperial Valley Puts up One
Hundred Thousand.

Matches Government Purse
to Harness Colorado.

Volcano Lake Levee Work is
Already Far Along.

United action on the part of the government and the people of the Imperial Valley to protect the great valley from the flood waters of the Colorado River was assured here yesterday when President W. O. Hamilton and Secretary C. M. Berry of the Imperial Irrigation district executed a note to the Los Angeles Clearinghouse Association for \$100,000.

Under act of Congress at the last session, \$100,000 was appropriated to raise the level of the Volcano Lake levee, with the provision that a like sum for the work should be forthcoming from the Imperial Irrigation district. It was to secure the money to comply with this provision that the note was executed yesterday. The money will be transmitted to the sub-treasurer of the United States at San Francisco today through the Farmers' and Merchants' National Bank.

All work in the Imperial Valley will be in general charge of Gen. W. L. Marshall, consulting engineer to the Secretary of the Interior. Gen. Marshall arrived at Yuma Monday and immediately appointed Chief Engineer C. R. Rockwood of the Imperial Irrigation district as superintendent of the Volcano Lake work.

"The work should be completed in sixty days," said President Hamilton of the district yesterday. "We have 300 teams already at work and will hire 100 more. About 500 men will be employed."

In all about 350,000 yards of dirt will be moved in the course of the work, which will consist of raising the level of the levee from three to four feet. In this way, the possibility will be guarded against of the spring flood waters rising above the crest of the levee and flowing downward into Salton Sea.

"We have \$100,000 on deposit for emergency use," said Mr. Hamilton in discussing the possibility of unforeseen breaks in the levee. "This money is a loan to the district from the associated banks of Los Angeles. After the flood crisis has passed it will be used to pay the notes, to be executed to the Clearinghouse Association."

JERSEY ELK MISSING.

Lodge Starts State-wide Hunt for
Man Who Leaves Home to Seek
Auto and Does Not Return.

With \$100 in his pocket and a quest for a second-hand motor car before him, Fred G. Bornemann, a well-known member of the Elk's Lodge, disappeared from his home at Eighty-first street and Manchester avenue, Sunday morning, and all efforts to trace him have been vain. He is 54 years old and of a nature so responsible that his friends cannot interpret his absence as due only to some tragedy.

For ten years he has been a resident of Los Angeles, having come here from Jersey City, where he was a life member of Elk's Lodge No. 211. He was in the laundry business here and had been prospering.

Mr. Bornemann is of light complexion, with light, wavy hair, weighs 154 pounds, is 5ft. 6in. tall and was wearing a brown suit and blue soft hat at the time he left his residence. His distracted wife has exhausted all agencies to locate her husband, and her agonized pleas have started a State-wide hunt for the missing man.

NOTED EDUCATOR HERE.

Grandson of Alexander Campbell,
Founder of Christian Church, Vis-
itor in Los Angeles.

Interesting guests at the Gibson apartments are Mrs. Alexander Campbell, wife of the son of Alexander Campbell, founder of the Christian church, and his grandson, Prof. D. C. Hagerman, an educator of prominence in the South.

Prof. Hagerman has become so charmed with Los Angeles and its surroundings that he may decide to locate here permanently. He has long been engaged in educational work. He was president of Bethany College of Bethany, W. Va., which was founded by Alexander Campbell. Later he became president of the Hamilton College for women, at Lexington, Ky., and still later he established the Campbell-Hagerman College for women at Lexington.

SUIT FOR DIVORCE.

Mrs. Haigh Files Action Against
Local Physician and President of
Foundry.

Mrs. Titania C. Haigh, through her attorneys, Ford & Hammond, yesterday filed an action for divorce against Dr. Frederic Haigh, president of the California Foundry Company, and a physician with offices in the Hyatt building.

Dr. Haigh last evening refused to discuss the subject, except to say that he understood the complaint set forth in statutory grounds.

Mrs. Haigh followed the action for divorce by filing a suit against her husband and Charles E. Orr to quiet title to property in the Rowley tract, which Mrs. Haigh claims to own and in which she asserts the right to assert an interest. The property, the complaint alleges, is valued at \$15,000 and is located on Menlo avenue.

GO SLOW ON CITRUS LAW.

Local Exchange Thinks King
Bills Should Wait.

Results of Government Tests
the Proper Basis.

Old Riddle of When Orange
is Ripe Revived.

Counseling caution for the good of the industry, in enacting specific laws to regulate the shipment of immature or frosted citrus fruits, General Manager Powell of the California Fruit Growers' Exchange asserted here yesterday, in speaking of the King measures now before the Legislature, that there can be no wise legislation on citrus standards until the Department of Agriculture shall have completed experiments now under way.

"For more than two years past," said Mr. Powell, "E. M. Chase of the Bureau of Chemistry of the department, has been conducting exhaustive experiments in this city on the entire subject of the ripening of citrus fruits. When these experiments shall have been completed, probably within another year, we will have a standard on which to work, set forth in a definite ruling by the bureau."

"At all times," Mr. Powell continued, "this exchange has discouraged the shipment of immature fruit, and it does not in any way mean the State regulation of shipments nor the purposes implied in the King bills. Personally, however, I feel that the wording of any bills passed at this time should be general, rather than specific."

"Incidentally, many representatives of the citrus industry, including myself, have taken up this phase of the subject with Mr. King, and have been assured that both his measures are merely to feel out sentiment on the subject and will probably be modified."

WHEN IS IT RIPE?

With the announcement yesterday from Sacramento that the King measures were both amended in conference, the old teasing question again bobbed up—when is an orange ripe? The King bill regulating the sale and shipment of frost-damaged fruit is amended to provide condemnation of shipments when 15 per cent or more of the fruit in any given package shows a mark of drying in 20 per cent, or more, exposed pulp. The other bill, which is framed to regulate the shipment of immature fruit, is amended to provide that fruit must be at least 80 per cent ripe.

(Continued on Second Page.)

THOUSAND-DOLLAR MARCH TO START TODAY.

Irregular in shape and has a depth of about 120 feet. The building will be the major portion of the 1.1 space being reserved for a smaller structure to be erected later. This building is to be completed within ninety days.

It will contain besides the main auditorium, a commodious Sunday-school department, young people's society room, pastor's study, choir-room and organ loft. A basement will extend under the entire building. This will be used for amusement purposes.

Because of the uncertainty that prevailed some months ago as to the new building, when the National Universalist convention decided to meet in California this year, its meeting place was divided between Los Angeles and Pasadena. The reports as to the people who will attend this convention show a much larger number than at first anticipated. Several special trains will arrive in Pasadena on July 5. There will be at least 500 delegates, and fully 1000 persons who will come to attend the sessions.

The young people's conference will be held in the Los Angeles church on the following day, but the convention sessions on July 7 and continuing over the following Sunday will be in the Pasadena church.

FRANK, HONEST, AND SIMPLE.

SO JAPANESE ADMIRAL WOULD
HAVE OUR DEALINGS.

Distinguished Guest of Honor
from Nippon at Beautiful
Luncheon Says He Doesn't Think
There will Ever be a Conflict
Between the Two Nations.

Admiral and Baroness Uru of Japan were the guests of honor at an elaborate luncheon at the Alexandria yesterday noon. The Japanese-American League of Los Angeles, made up of leading Japanese citizens and some well-known Angelenos, was the host.

The tables presented a rather unusual scene because of the intermingling of the men and women of both races and the beauty of the floral decorations. F. D. R. Moore, president of the league, who declared that this was formed in order to protect the Japanese community, was the guest of honor.

(Continued on Second Page.)

TOO MUCH PROHIBITION.

One of Whittier's Anti-Jugger Ordinances
is Declared Invalid by the
Appellate Court.

An ordinance adopted by the Trustees of the city of Whittier was the subject of a decision handed down by the District Court of Appeal yesterday in the habeas corpus petition of Charles Worsham, who had been found guilty and fined by the recorder.

The Trustees adopted what is known as ordinance No. 157, that made it a misdemeanor for anyone to sell into a place where intoxicating liquor is sold. The court ordered the discharge of the prisoner, and took occasion to remark that the enforcement of such an ordinance would make it impossible for a person to enter drug stores for many of the ordinary purposes of life, or the transaction of any legitimate business, without being guilty of a misdemeanor.

The court remarked, however, that it would be very easy to amend the ordinance so that it would not violate the constitution, and that the enforcement of such an ordinance was a prohibition measure.

BASKET PICNIC.

Ladies of the G.A.R. Union Circle
will hold a basket picnic at South
Park tomorrow, to which comrades
are invited.

NAME LOCAL LOBBY TO FIGHT CHANDLER BILL.

DETAILS were perfected yesterday afternoon, at a meeting of attorneys in the rooms of the Million Club, Coulter building, for a strong campaign against the Chandler bill providing for the appointment of all judges, from chief justices to justices of the peace, by the Governor.

This meeting was attended by between thirty and forty members of the Los Angeles bar and others who have a strong interest in the situation and an inclination to do what they can to defeat legislation they declare would be subversive of true democracy.

The meeting gave its endorsement to two bills introduced by Mr. Chamberlin. The first of these is an act to amend section 156 of the Code of Civil Procedure, and relates to the qualifications of Justices of the Supreme Court. This amendment provides:

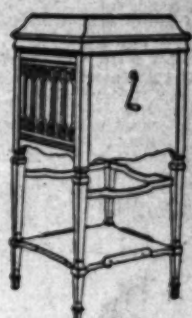

"No person shall be eligible to the office of chief or associate justice of the Supreme Court unless he shall have been a citizen of the United States and a resident of this State for two years next preceding his election or appointment, nor unless he shall have been admitted to practice before the Supreme Court of the State and shall have been engaged in the active practice of law within the State for a period of not less than ten years."

The other bill that received endorsement at the meeting was an act to amend section 157 of the Code of Civil Procedure, relating to qualification of Superior Judges. It provides:

"No person shall be eligible to the

Make Your Own Records on The New Edison Diamond Point Amberola

It is the only phonograph made with which you can make records in your own home. This is a feature of the Amberola that should interest you. Come in and let us tell you about it.

Special Outfit Suggestions

- Amberola B 3
- No. 2—Amberola VIII; oak finish; six Blue Amberol indestructible records \$48
- No. 3—Amberola VI; mahogany or quartered oak; eight Blue Amberol indestructible records \$64
- No. 4—Amberola V; mahogany or oak; automatic stop; twelve Blue Amberol indestructible records \$86

Terms as Low as \$1 Weekly

Amberola B 1. If interested in a photograph of exclusive features, we recommend the Edison Diamond Point Amberola (no needles to change)—the records are the new four-minute indestructible Blue Amberol and possess the same wonderful tonal qualities that have made the Edison products famous the world over. Catalog on request.

Aviator Falls to Death.

(Continued from First Page.)

as though the aviator's bomb had struck true.

A wave of the flag, and Aviator Stites hitched in his flight. In the camera's nervous eye he swung once more aloft, where the air was firm and true, and then he dipped to swoop down on the dummy plane.

DEATH IN DEAD AIR.

When his machine passed the valley's brim and dropped into the dead and yielding air, the biplane came with a terrible rush. Conscious of the danger, but ready with his plans, the aviator dropped his bomb as he passed above the dummy machine that was singing in its flight along the wire. It was accurate marksmanship, but he had no time to notice, for he was wrenching at his planes in an effort to stop the desperate drop and lift it again to the safe sea air above.

The explosion came and the sickening rush stopped. The gases released by the exploding powder were heavy, and on them the aviator rested his wings and struggled upward, and Aviator Stites thought he was saved.

But the instant he had passed beyond the bed of gas the machine fell again. The tilted tiller in the rear caught up the end and the machine scoured backward for 200 feet, then sank nose first to the ground. When it was about sixty feet above the ground, and falling like a diving gull, Mr. Stites released himself from the seat and plunged forward over the steering wheel, out of the planes. He came down faster than his abandoned machine. He fell straight. The machine, darting after his dropping body, fell at an angle.

Almost at the feet of the horrified spectators who had gathered in the dropping sunlight to witness the holiday event, came the aviator, and fifty feet away the machine crashed into a thicket of oak stumps.

NO LIFE, NO BREATH.

There was no life, nor breath in the aviator. They took him to the hospital on the grounds, where Dr. F. O. Lamberson applied the pulmotor in a final effort to arouse the lungs. But none knew when life passed.

The body was taken to the Gates & Crane undertaking rooms in Hollywood, and arrangements for the funeral will be announced today.

The widow with her children came to look upon him, but could not pass the mournful door that led to the room where he lay.

Stopped are the plans for further games at Universal City during the week. Immediately after the tragedy President Laemmle gave out word that the ceremonies were at an end. The gay flags were drawn down to half mast, and Frank Stites's plans for a summer of glory and wealth in the air were over. And he had never made more than a slender living by his flights.

THREE FOR BRUTAL ATTACK.

Two Men are Arraigned on Charge of Assaulting Marshall—Third is Arraigned as Accomplice.

Glenn Loving, alias Fred D. Dawson, and Alton Valle, were arraigned yesterday before Justice Cassidy at Huntington Park on a charge of murderous assault upon Marshall W. E. Ford, who is in a serious condition at the Preston Home Hospital. Both men were returned to the County Jail to await preliminary hearings.

Orin Knickerbocker, 20 year old, was arrested yesterday by deputy sheriffs and is being held in connection with their investigations of the brutal attack upon Mr. Ford.

Delivers Address to Five'n'Over Club.

Miss Evelyn Hamburger.

Who spoke before the unique organization of Hamburgers at a banquet last evening on the subject of Easter in Palestine, Spain and Rome.

Five 'n' Over.

GIRLS OF WHITE STORE HAVE A CELEBRATION.

"O IRELAND, isn't it grand you look—
Like a bride in her rich adornin'!
And with all the pent-up love of my heart
I bid you the top of the mornin'!"

Such was the theme that ran through the banquet given by the Five 'n' Over Club of A. Hamburger & Sons last evening in the Cafe Beautiful of that store. The club is composed of girls having been with Hamburger's five years or more, and there are now enrolled 128 members.

Miss Anna Dempsey was chairman of the evening. The guests of honor were Miss Evelyn Hamburger, Miss Belle Hamburger, Mrs. Henry Henderson, Miss Olive Gray and P. Thompson.

Miss Evelyn Hamburger, who just returned from Europe, gave a delightful and interesting talk on "Easter in Palestine, Spain and Rome." Mrs. Henry Henderson gave several child readings of her own composition. P. Thompson, a young attorney, gave a brief talk on "Ireland of Today." Solos were rendered by Miss Maud Kearney.

The decorations were carried out in green, typical of St. Patrick. The centerpiece was a miniature Blarney Castle, loaned through the courtesy of Mrs. William Fitzpatrick, whose grandmother brought it from Ireland more than fifty years ago.

Racing pilot arrested for speeding. Constable W. R. Coleman of Orange county springs warrant on Arthur Klein, driver of the Puente Pronto, and Deputy Constable Jesse L. Elliott slips the mufflers over his wrists. At left below, is Bill Tassie, Klein's mechanic, who protests against arrest of driver, who is to appear at Venice today.

PRECOOLED CARS SPEEDING EAST.

GATE CITY ICE PLANT SHIPS ORANGES PACKED IN SAN BERNARDINO.

[LOCAL CORRESPONDENCE.] SAN BERNARDINO, March 16.—The first train of precooled fruit to leave Southern California departed over the Santa Fe today, after being treated at the Gate City Ice and Precooling plant here. The annual precooled season is now started and a large part of the oranges and lemons shipped from the south from now on will be first blasted with cold air.

It is expected that 15,000 carloads will be handled in the plant this year. Since the great \$1,000,000 plant was opened on June 17, 1910, the Santa Fe has pre-cooled and loaded more than 54,000 carloads. Last year was the record, with 14,500 cars. Oranges are moving now at the rate of about 100 cars per day and about 50 per cent of this will be precooled before leaving.

PROWLER SHOT IN SECOND EFFORT.

TRIES TO OPEN A BEDROOM WINDOW; SLEEPER SHOOT.

Shot in the head while attempting to pry open a window at No. 715 Wall street, Nick Dapas of No. 218 East Fourth street, declared by the police to be a burglar, was taken to the Receiving Hospital late last night suffering from a fracture of the skull. E. V. Probasco, who did the shooting, was taken to Central Police Station but was later released.

According to the officers who made the investigation, Mr. Probasco and his wife were awakened by Dapas trying at their bedroom window. Mr. Probasco went to the window and heard some one running. After returning to his bed, Mr. Probasco and his wife declared to the detectives, the prowler returned and again went to work on the window.

Drawing his revolver from beneath his pillow, Mr. Probasco declared he opened his screen and seeing a man crouching in the shadows fired. The burglar fell but staggered to his feet and fled. He fell again in front of the house and remained there until the police arrived.

When questioned in the hospital the prisoner refused to talk. According to Dr. Johnson, who treated him, the prisoner may not be in his right mind as he is suffering from a fracture of the skull where the bullet struck.

Lin Murray, the well-known lawn tennis player, and former Leland Stanford University half-miler, has decided to limit his track activities to the quarter-mile for the next month or so.

INVESTIGATING STATE OIL BIDS.

THREE COMPANIES PUT IN SAME FIGURE FOR HARBOR CONTRACT.

[BY A. P. MIGHT WIRE.] SACRAMENTO, March 16.—An investigation by the Board of Control of a coincidence of identical bids by the Standard Oil Company, the Associated Oil Company and the Union Oil Company in a competition for State contracts has been begun, it was given out tonight.

On a three-year contract, involving \$14,000 to supply oil to the San Francisco Harbor Commission, the three companies were found, when the contracts were opened, to have made the same bid of 70 cents per barrel, a 1-cent advance on the old contract.

The Harbor Board made a tentative award, dividing the business, but when the bids were submitted for approval of the Board of Control the approval was suspended to investigate the similarity.

"We are making an investigation of the peculiar circumstances under which these three companies always bid the same price on State contracts. So far we have drawn no conclusions," said John P. Neelan, president of the board.

The Harvard versus Princeton and the Yale versus Princeton baseball games will be played on the Polo Grounds, New York, on July 16 and July 17, and the Yale versus Harvard third game if necessary will be played on Ebbets Field, Brooklyn, on June 26.

TO REFINANCE.

It is expected that the State Railroad Commission will approve the application of the Citrus Belt Gas Company to issue \$350,000 in bonds to be used entirely to meet obligations of the company. At the hearing before Commissioner Alex Gordon it was intimated that the gas company may be granted permission to assume the indebtedness.

This is the third attempt of the company to refinance itself following the financial breakdown of the company under the J. M. Gardiner regime, three years ago.

The seven girls' schools forming the Missouri Junior College Union are working on plans for a track meet—a real track meet such as the men hold—this spring. The meet will probably be held in May at Columbia, Mo.

IN CONSPIRACY TO COUNTERFEIT.

THREE ARE ARRESTED IN SAN FRANCISCO BY UNITED STATES OFFICERS.

[BY A. P. MIGHT WIRE.] SAN FRANCISCO, March 16.—Charged with conspiracy to make counterfeit \$5 gold pieces, William H. Fillmore, Martin T. Fillmore, his son, and A. T. Sealey, his son-in-law, were arrested today by Secret Service Agent Isidore Constantine, at the Fillmore ranch at San Martin, near San Jose.

The elder Fillmore made a confession, according to the Federal officers, in which he said he had learned to make counterfeit money while awaiting trial for horse-stealing in Santa Clara county and after serving his sentence he and his son had gathered the paraphernalia for making the bogus coins with the intention of retiring into the hills back of San Martin. Some of the new \$5 pieces were found on the man, Fillmore is said to have admitted they were to be used as models. He declared Sealey knew nothing of their intention.

Deputy United States Marshal Mulhall brought the prisoners to the County Jail in Oakland tonight from San Jose.

ARK EXPRESS REHEARING.

Representatives of Four Companies Declared Low Rates in Force Have Been Very Disastrous.

[BY A. P. MIGHT WIRE.] WASHINGTON, March 16.—Representatives of the American, Adams, Southern and Wells-Fargo express companies asked leave of the Interstate Commerce Commission today to file a petition for rehearing of the express rate case. It declared that the low rates in force prescribed by the commission have been disastrous.

Commissioner Clark announced that the commission would consider the application for rehearing. The petition set forth that the first ten months' operation under the new rates had brought the four companies a deficit

ARK EXPRESS REHEARING.

Representatives of Four Companies Declared Low Rates in Force Have Been Very Disastrous.

[BY A. P. MIGHT WIRE.] WASHINGTON, March 16.—Representatives of the American, Adams, Southern and Wells-Fargo express companies asked leave of the Interstate Commerce Commission today to file a petition for rehearing of the express rate case. It declared that the low rates in force prescribed by the commission have been disastrous.

Commissioner Clark announced that the commission would consider the application for rehearing. The petition set forth that the first ten months' operation under the new rates had brought the four companies a deficit

of \$2,760,904. It offered opportunity for examination of books of the companies, "for the purpose of verifying the above figures and any other particulars as may have a bearing upon this application."

A specific request was made for a hearing and a modification of the commission's general order, "by increasing the terminal allowance from 20 to 25 cents per shipment and reducing the weight allowance from 35 to 25 cents per 100 pounds, and for such other and further modifications of such order as may be deemed proper."

Reginald L. Baker, the Australian boxing promoter, has opened one of the finest stadiums in the world in Melbourne, where he intends to stage boxing contests. It has a big marble lobby with stained oak paneling and thousands of electric lights. There is a powerful purple light burning from the dome in the center of the roof all night, and this light can be seen from all over Melbourne within a radius of five miles. The opening event is to be a bout between Mick King vs. Joe Smith, middleweights.

The Times Special Excursion

To San Diego and the Fair

Secure your reservation today and take in a grand two days' sight-seeing trip—
THE \$10 TICKET INCLUDES ALL NECESSARY EXPENSES.

\$10

The Itinerary

SATURDAY, MARCH 20th
Board train Santa Fe Station at 8:00 a.m.
Arrive at San Diego 11:30 a.m.
Baggage transferred to Hotel Sandford and Ames.
Cars to Fair Grounds.
Admission to Fair Grounds.
Lunch at Levy's.
Seeing the Exposition Beautiful.
Admission to Hawaiian Village.
Band and Big Organ Concerts.
Dinner at Levy's.
Cars to the Hotel Sandford and Ames.
Accommodation at the Hotel.

SUNDAY, MARCH 21st.
Breakfast at Restaurant.
Boat ride on Bay.
Admission to Fair Grounds.
Lunch at Levy's.
Admission to Painted Desert Exhibit.
Admission to Panama Canal Exhibit.
Concerts.
Seeing the Exposition Beautiful.
Dinner at Levy's Cafe.

BRETON'S HOMER BEATS TIGERS.

White Sox Goofs Win Out in the Tenth.

Hoop Ties Score with Double, Cleaning Bases.

Fournier Slams Ball Over Top of Scoreboard.

BY HARRY A. WILLIAMS.

The Tigers didn't have much trouble locking the main body of the White Sox yesterday, but the Sox Goofs, or last-inning proved too tough for them yesterday—a circumstance which would seem to indicate that a new and better race of Goofs has sprung up since last spring.

The evolution of the Goof has been rapid. In place of the untutored farm hand of a year ago, today we find the finished athlete and polished citizen, saturated with valuable information and hotel grub as the result of extensive travel.

For the first time this season the gates of the beautiful Venice Park were thrown open to the general public. However, most of the general public seemed to be looking the other way when it happened, as the small attendance at ball games for which the city by the sparkling sea is justly famous was maintained.

The Goofs went heavily toward home runs, and it was this tendency to bat the ball out of the lot that resulted in a 4 to 3 defeat for the Tigers.

Jack Breton slammed the pill over the left field fence for the deciding run in the tenth, after Frans Hoop had cleaned every base in the place with a double tying the count in ninth.

Pas Soup Fournier was the proud author of the other home—a drive in the fourth, which cleared the top of the scoreboard. The accuracy of his offense cannot be fully appreciated until it is considered that the scoreboard sticks thirty-five feet straight into the air, and is at the extreme depth of center field.

Fournier's double in the second gave the Goofs their first tally, and for eight innings it looked for all the world like a combat between the Tigers' collectivity and Pas Soup individually.

Pichers came and went with pleasing abandon. Chicago used Benz, Walsh and Faber at odd intervals, while Ray resorted to Henley, Deanniere and Piercy.

Ray had not intended to use Piercy, but when it came time for Deanniere to bat in the ninth, it was found that Deanniere had disappeared from the place under the impression that the Tigers had been beaten beyond all hope of recovery. Several other pitchers had left the park suffering from the same misapprehension. Piercy alone, sitting by the sidelines, the kid got along all right after Breton had hit him for that homer, but it really didn't matter much what happened after that.

Joe Benz worked the first five innings for Chicago, and held Venice to one scratch hit. Another pitcher, Ray, who played for the Sox, said that he isn't feeling very well. Just wait until Joe regains his appetite, and you'll see his strength back.

Ed Walsh took hold in the sixth, and acted like he was staging a regular "comeback" until the ninth, when he became wild and his defense went to smash, and the Tigers, up to that time downcast and scoreless, tied up the count with a three-run rally.

Breton jumped the Goofs back into the lead in the first of the tenth, and the Tigers were unable to locate the two men, and finally blundered out two of the three men to face him in the last half. Ray seemed to have everything that a rising young pitcher needs.

Fournier doubled against the scoreboard in the second, and scored on Deanniere's sacrifice and an out. Then in the fourth, as before divulged, he cracked one of Henley's curves out of the lot. The bases were vacant at the time. This put the score, 2 to 0. Mike alone had been able to get a hit off Benz.

Beginning with the sixth, each side made a change in its pitching scenery. Henley and Benz abdicating in favor of Deanniere and Walsh. Dec got by nicely until the ninth, when a double by Roth and a single by Deanniere gave Chicago its third run.

In the sixth, seventh and eighth Walsh whiffed four of the Tigers, held them runless and in other ways acted like the mound monarch of former days.

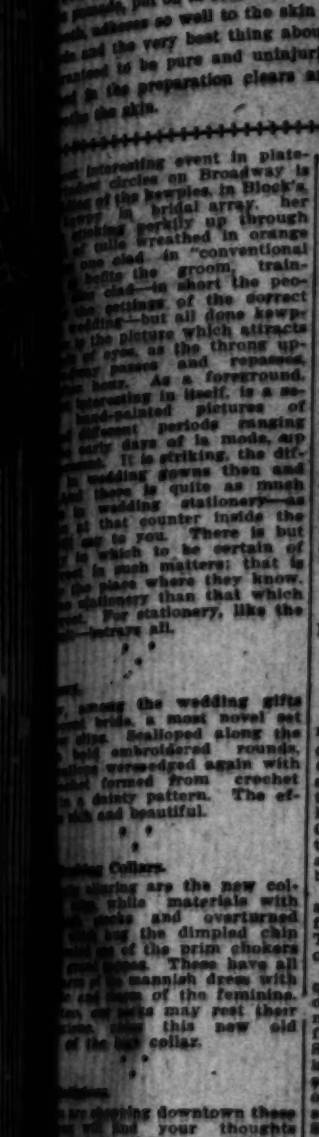

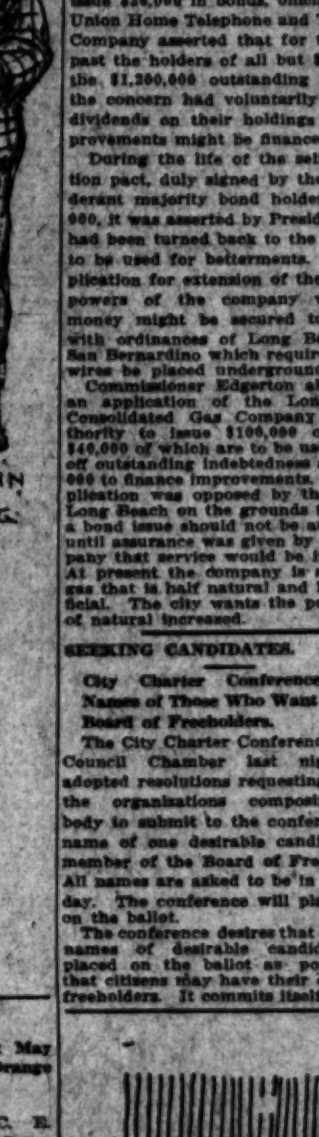

But in the ninth, Ed was overtaken with a great sorrow. When the Tigers lined up for their bats in that frame they looked like the biggest end of a 50-40-1 bat. But one of Ray's athletes had reached second during the afternoon, and the evidence all seemed to be against them.

Walsh walked Wilhoit, the first man to face him in the ninth. Hitting back to Chappell, Kane drove sharply to Walsh. Ed looked to have a pinch double play, but those who have retired the play, but those to make the play on Kane at first and let

Wilhoit make his merry way to second. Rineberg walked. Two on and two down.

"The game's still young," yelled Ray, out on the third base line. Fournier jammed the ball down to Breton. Jack, overager to take Wilhoit coming to third, fumbled. Possibly the fact that Ray was in that vicinity had something to do with Breton's strange actions. This loaded the bases.

Ray lived up to his reputation as a valuable man in an emergency, with a line drive to right center. Deanniere made a hard try, and got one

band on the pill, but failed to squeeze it. It was a wholesome double. Wilhoit, Rineberg and Purcell came home in a lump, tying the score. Bliss singled, putting Hoop on third. Deanniere was next up, but a thorough search failed to reveal him. Gus Gleichmann, slightly crippled, but still willing to bat in a pinch, leaped forth and retired the side with a fly to Deanniere.

Piercy entered the picture at the opening of the tenth, and Breton, first to call around, lost the ball over the left-field fence. That was all for the Sox; also for the Tigers as Faber didn't do a thing but ran Carlisle and Helling in the last half. Wilhoit fished off a foul that was easy for Ray. Faber had so much stuff that Carlisle and Helling hardly unshouldered their bats, while Finney talked off the side.

The score:

	W	L	E	R	R	P	O	A	E
Goofs	4	0	0	0	0	0	0	0	0
Tigers	0	0	0	0	0	0	0	0	0

—Batted for Benz in sixth.

	W	L	E	R	R	P	O	A	E
Goofs	4	0	0	0	0	0	0	0	0
Tigers	0	0	0	0	0	0	0	0	0

—Batted for Benz in sixth.

	W	L	E	R	R	P	O	A	E
Goofs	4	0	0	0	0	0	0	0	0
Tigers	0	0	0	0	0	0	0	0	0

—Batted for Benz in sixth.

MAJORITY DOESN'T SEEK DIVIDENDS.

STOCKHOLDERS WOULD RATHER SEE IMPROVEMENTS, SAY'S CORPORATION.

The age of miracles is not past. Appearing yesterday before Commissioner Edgerton of the State Railroad Commission, requesting authority to issue \$25,000 in bonds, officials of the Union Home Telephone and Telegraph Company asserted that for two years past the holders of all but \$25,000 of the \$1,200,000 outstanding bonds of the concern had voluntarily foregone dividends on their holdings that improvements might be financed.

During the life of the self-annihilation pact, duly signed by the preponderant majority bond holders, \$100,000, it was asserted by President Ellis, had been turned back to the company to be used for betterments. The application for extension of the bonding powers of the company was that money might be secured to comply with ordinances of Long Beach and San Bernardino which require that all wires be placed underground.

Commissioner Edgerton also heard an application of the Long Beach Consolidated Gas Company for authority to issue \$100,000 of bonds, \$40,000 of which are to be used to pay of outstanding indebtedness and \$60,000 to finance improvements. The application was opposed by the city of Long Beach on the grounds that such a bond issue should not be authorized until assurance was given by the company that it would not be a financial failure. At present the company is serving a gas that is half natural and half artificial. The city wants the percentage of natural increased.

SEEKING CANDIDATES.

City Charter Conference Wants Names of Those Who Want Place on Board of Freeholders.

The City Charter Conference met in Council Chamber last night and adopted resolutions requesting each of the organizations composing that body to submit to the conference the names of one desirable candidate for member of the Board of Freeholders. All names are asked to be in by Monday. The conference will place them on the ballot.

The conference desires that as many names of desirable candidates be placed on the ballot as possible so that citizens may have their choice of freeholders. It commits itself to none.

STRUCK IN THE SUN.

Cashier of Santa Ana Bank May Die—Auto Club Asks for Orange County Sign.

SANTA ANA, March 16.—C. E. Lammie, cashier of the Orange County Savings and Trust Company, is near death. Today he was stricken while at work in the hot sun fixing an automobile tire that had punctured.

Several months ago Lammie had a severe struggle with typhoid fever, since which time he has not been strong. Over-exhaustion in the heat of the day today resulted in an attack that rendered him unconscious within a few minutes. His physician does not think Lammie can survive the illness.

ASKS FOR SIGNS.

Today, C. E. Lammie, representing the Automobile Club of Southern California, asked the Board of Supervisors for an appropriation of \$1000 for putting up new road directory signs throughout Orange County. The matter was taken under advisement.

The "Follies" at the Mason. As seen by Mr. Barnard of the Times art staff.

How Racers' Wives Feel.

Mrs. Barney Oldfield: "Why should I worry about Barney being injured driving an automobile today. Several years ago when racing automobiles were built for the purpose of experiments, the materials used in the various parts were often responsible for smash-ups. I think Barney had seven had accidents, and not one of them was due to his driving, but to some unforeseen happening over which he had no control. Today the racing automobiles are built better and much more perfectly than in the early days of racing. I think these facts have helped me to make the life of an automobile racer's wife less full of worry."

"My husband always carries a prayer in his inside pocket, and I believe his faith in this prayer has done more to relieve the nervous strain on him than anything else. Several of the other drivers carry the same prayer, and I think have been much benefited."

JACK DILLON WINS SHADE OVER SMITH.

(BY A. P. NIGHT WRITER.) MILWAUKEE (Wis.) March 16.—Jack Dillon, Indianapolis heavyweight, shaded Gunboat Smith of New York in a ten-round, no-decision boxing bout here tonight, according to a majority of sporting writers at the ringside.

Dillon was too fast for Smith on the lightning rights and lefts being placed to the body with good advantage. Smith depended almost entirely upon his left, trying hard to swing to the head, which generally missed. Dillon was credited by sporting editors with winning six rounds, two being even and two going to Smith. Smith attempted a comeback toward the end of the fight.

One of my friends who has recently blossomed into the beauty of her first girlish complexion, tells me that it is the use of a new cosmetic which she uses in place of powder. It is a cream, and is applied to the face in the same manner as powder. It is a cream, and is applied to the face in the same manner as powder. It is a cream, and is applied to the face in the same manner as powder.

There is a new turban for the young girl. It is made of white muslin and it has a corded trim, which fits the head closely. The crown is slightly tapered and is shaped. There is a strap fastening under the chin. The only trimming is a bunch of daisies on the left side.

CIRCUS DAYS
ARE AT HAND.

FORESTERS JOIN WITH BARNES
AGGREGATION FOR FROLIC
TO AID HOSPITAL.

Four days of circus, and that's right at hand! Today, tomorrow, Friday and Saturday, with afternoon and evening performances, and a daily street parade—that is the programme the Independent Order of Foresters has arranged with the Al G. Barnes Circus. The Foresters will join in the four-day frolic, and the proceeds are to be used to aid the hospital building fund.

The circus will show at Twelfth and Hill streets, giving its first performance this afternoon at 2 o'clock. The street parade will start at 10 o'clock this forenoon.

TRADERS BLAMED
AS CONSPIRATORS.

In a statement issued by R. P. de Negri, Consul-General for the Constitutionalists at San Francisco, it is asserted that a political conspiracy has been made to injure the reputation of Gen. Alvaro Obregon, now in command of the Carranza forces at Mexico City.

Gen. Obregon is pronounced to be "young, energetic, brave, conscientious and honorable, and well acquainted with the human miseries." It is said that the people of Mexico City went to him and begged for food, which the traders refused to sell.

The traders were in a political scheme, it is asserted, to injure the Carranza party, so when Gen. Obregon failed to induce them by respectful arguments to change their attitude, he then said that he would not fire on the hungry people who tried to obtain a square deal, but that all foreigners and citizens would receive the necessary protection to their lives and property.

In regard to the difficulties confronting Carranza, Senor de Negri says that one of the greatest has been the tendency on the part of subordinates to assume authority, executive in character, and so treat with the representatives of foreign governments.

Senor de Negri says "in insisting upon the representatives of foreign governments treating with him (Carranza) direct, instead of through subordinates, seemed convenient, he only acts in the interests of peace and the upholding of his government and authority."

One of the most flashing of the paragraphs in the Consul-General's statement is that the Carranza forces are "young, energetic, brave, conscientious and honorable, and well acquainted with the human miseries."

SHE BATTLES HORSES
TO REACH HER GOAL.

A YEAR AGO Miss Fay Mason battled the nose of her pet horse at Union, Iowa, and pointing him away from the setting sun, said to him: "Old boy, we're going to California some day." She was 17 years old. The horse had been her pet since childhood. Following her arrest here yesterday on a theft charge she told her story.

PATENTS GRANTED.

Patents have been granted as follows, according to advices from Washington received by the Harvard, Berry & Miller patent agency of this city:

FIRE VICTIMS ON
THE SAFE SIDE.

BELIEVED WOMAN SERIOUSLY
INJURED WILL RECOVER;
ALSO THE MAN.

Though two persons are in a serious condition, it is believed by the physicians at the Crocker-Street Hospital that the toll of death as the result of the fire, which consumed the Woodbury apartments at No. 214 North Olive street, early yesterday morning, will only be two.

The many remarkable cures of colds and influenza effected by Chamberlain's Cough Remedy have made it famous over a large part of the civilized world.

was of suspicious origin, but the investigation is to determine ways for the better building of apartment-houses of a like character. The result of the investigation will be turned in to the City Council for action.

IN HONOR OF FEDERAL JUDGE.

Nearly Two Thousand Invitations Issued for Dinner to Be Given by Democrats.

Nearly 2000 invitations have been sent out for the banquet to be given by prominent local Democrats to Judge Oscar A. Trippet of the United States District Court, next Friday night at 7 o'clock at the Alexander Hotel.

MINUTA OFFICIALS.

DINUBA, March 15.—New directors of the Dinuba Chamber of Commerce were chosen at an election held today. They are W. R. Nichols, F. L. Wilson, O. A. Bassett, J. H. Pittsberry, J. H. McCracken, H. J. Barrett, W. F. McCracken, E. Sigman, H. G. Haden, G. C. Hobbs, Royce Harker, Ross Morton, J. H. Newman and O. L. Hopkins.

How Is Your Weight?

While it is true that the much weight is not to be desired, yet the fact remains that many men and women are thin to the point of danger. This danger lies in their having no reserve force, no power to combat deadly diseases. A little extra flesh is needed by all to feed and to look well, and this calls for the question of how best to increase the weight.

Pasadena.
NOVEL CRUISE
TO SOUTH SEAS.Artists to Charter Yacht for
Long Expedition.Jitney Busmen Obtain Tem-
porary Injunction.Noted Marine Officer with
Dewey at Manila.

(LOCAL CORRESPONDENCE.)
PASADENA, March 17.—Louis Barr, a poet and wealthy real estate man, who is passing the winter at the Hotel Green, has arranged with several other friends of fortune from the East, with literary tastes, to charter a yacht to bear them on a trip to the South Sea Islands in the early summer.

The trip will be made by Mr. Barr to gather data for a book on the South Seas in which he will endeavor to preserve the folklore of the natives.

The interesting little group of a dozen literary people will take along a motion picture outfit to make films of the inhabitants in their native costumes, showing them in their dances and in their favorite haunts.

The personnel, which will include several painters, poets, writers, and at least one composer of music, will perhaps form the most unique party ever to have visited these islands, or any other practically unknown land.

They will pass their time for the most part visiting the groups far off the steamer routes, and little known to the world. These will also include the New Hebrides and Solomon Islands.

The idea is that of Mr. Barr, who had intended making a trip to China and India, but whose plans have been changed on account of the war.

Nothing fascinates the young poet and society man so much as delving into the unknown and mysterious. He has written several South Sea articles, and has arranged a number of prose poems from the ancient Indian and Chinese.

The present intention of the party is to make a trip of about eight months' duration, returning to San Francisco next autumn.

JITNEY INJUNCTION.
Judge Wood was routed out of his library at his home here last night by a delegation of jitney busmen and their attorneys, asking for an injunction against the city of Venice to prevent it from enforcing a recently passed ordinance which practically prohibits the operation of cars except under strict conditions which the drivers have not yet been able to fulfill.

A temporary restraining order was granted and the merits of the case are to be heard Monday. Meanwhile the autos will be permitted to operate under the old conditions.

Immediately the order was issued the word was passed to the jitneys in Los Angeles, and 300 of them prepared to do business for the sake of the race today. They lined up late last night ready to start from the Hill-street station early this morning.

OUTDOOR DANCE.
Guests at the Hotel Green last night began an innovation in dances, and from now on the smart set will be seen tripping the glorious evening on sidewalks, verandas and lawns.

So attracted were those who heard of the novel plan, that several hundred society people gathered to enjoy the dance. It was a pretty affair and for the first time debutantes were seen dancing.

the new steps with lovely evening wraps thrown gracefully around their shoulders.

Among the distinguished persons present were Gen. T. Coleman du Pont and his two charming daughters; Mr. and Mrs. Eaton; Gen. and Mrs. W. B. Biddle; Mrs. T. Shaw; Mr. and Mrs. J. B. Harris and many lovely society girls.

MARINE VETERAN.
Gen. W. B. Biddle, fleet marine officer on board the cruiser Olympia with Admiral Dewey in the battle of Manila Bay, and who commanded the marines in the Peking relief expedition with the late Gen. Chaffee, arrived here yesterday, and with his wife is staying at the Hotel Green.

Gen. Biddle, who has had a distinguished career in the Marine Corps, in which he served nearly forty years, retired last year. His home is Philadelphia. He and Mrs. Biddle have been visiting in Riverside all winter, and are charmed with Southern California.

Another distinguished man visiting here is A. B. Stickney, a railroad builder of St. Paul. He is a self-made man, having taught school as a boy, after which he was admitted to the bar. After seven years' practice, however, he engaged in building and in operating railroads, which he continued nearly half a century. He and Mrs. Stickney are at the Maryland.

OPTIMISTIC.
J. C. Eaton, president of the T. Eaton Companies, Limited, of Toronto and Winnipeg, arrived in Pasadena yesterday, having come to see A. A. Goltz, manager of the Winnipeg branch of the company, who has been seriously ill since his arrival here early in the winter.

Mr. Eaton is perhaps the most optimistic man who has visited Pasadena this winter. He says that the people of his country refuse to look in the face hard times, and therefore are prosperous.

At first they were upset, but in the last few months have gotten settled.

Nowhere else in the world can you find so many beautiful useful and expensive novelties fashioned from all Chinese embroideries as at Grace Nicholson's Famous Pasadena Shop.

Hotel Vista del Arroyo, Pasadena.—[Advertisement.]

Porterville.
PROPOSE TO REGULATE
MARKETING OF ORANGES.

(LOCAL CORRESPONDENCE.)
PORTERVILLE, March 15.—R. C. Merriman, the president of the Tulare County Protective Association, under the direction of which the orange-testing work was done last year, and under control of which interstate shipments of oranges were made this season, has appointed a committee of nine leading orange growers to ascertain the causes which lead to periodical demoralization of markets, with a view to suggesting a remedy.

The fruit jobbers of the eastern market centers are playing wily wits, and are endeavoring to outwit the growers. "With packers in the field who are willing to cut prices on our fruit for the sake of making sales, and

with jobbers thoroughly organized, the bottom of the market almost every year is red ink. We propose to stop it."

The purpose of the committee of nine will be to investigate a proposed orange clearinghouse, the plans of which have been devised by Crowe and which is intended to compile complete information each day on the shipping season, and in particular to keep track of the jobs as offered to cut prices. It is also proposed through this association to set, at times during the shipping season, a minimum price for fruit.

Named on the Committee of Investigation are W. L. Crowe, H. C. Carl and Dr. W. E. Emery of Porterville; C. W. Preston, J. E. Pogue and R. C. Merriman of Exeter; W. B. Kiggins, C. K. Tout and Charles Burr of Lindsay.

Long Beach.
UNPAID BONDS
BLOCK ACTION.

Protest Causes Withdrawal
of Telephone Petition.No More New Securities, Say
Long Beach Citizens.Mayor has His Fill of Hold-
ing Public Office.

(LOCAL CORRESPONDENCE.)
LONG BEACH, March 14.—Vigorous resistance on the part of city officials to the application of the Union Home Telephone Company to raise rates and issue additional securities before the Railroad Commission this afternoon resulted in the withdrawal of the application of the company. At the same time the commission expressed its willingness to allow the Long Beach Consolidated Gas Company to issue \$100,000 more bonds.

When the officials of the Home concern appeared before Commissioner Legerton to make arguments why they should be allowed to raise their rates and issue more bonds, Mayor Wheaton and City Attorney Kapp, appearing for Long Beach, made appealing pleas to the effect that the company deserved neither.

It was alleged by the local officials that the present service did not warrant any raise in rates, and that the company should not be allowed to issue more securities because there were thousands of dollars in unpaid bond coupons still being awaited by Long Beach stockholders in the company.

Whereupon Attorney E. C. Denio, for the company, after a consultation with other officials of the concern, agreed to withdraw the application.

The city of San Bernardino made joint cause with Long Beach. It was represented by City Attorney Guthrie, who declared that if the Home concern of that city did not put its wires underground within two months San Bernardino would cut the poles down and declare the Home franchise forfeited.

While tacitly agreeing to an additional issue of \$100,000 in bonds by the Long Beach Consolidated Gas Company, Commissioner Legerton intimated that the issue should not be used as a lever for raising rates here. He stated that \$68,000 should be used in extensions in new territory, and the remainder for betterments of the local plant.

MAYOR HAS ENOUGH.
Mayor Wheaton cleared up the local political situation somewhat tonight by announcing that he would not become a candidate for office under the new charter at the election of May 31. "Me for the tall timber when election time comes," he said: "no more office for me."

Several citizens more or less distinguished have been holding off announcements of their candidacy because of the silence of the Mayor.

MAYOR HAS ENOUGH.
Mayor Wheaton cleared up the local political situation somewhat tonight by announcing that he would not become a candidate for office under the new charter at the election of May 31. "Me for the tall timber when election time comes," he said: "no more office for me."

Several citizens more or less distinguished have been holding off announcements of their candidacy because of the silence of the Mayor.

Now that he has spoken there will be a scramble for jobs.

Today the following persons announced their candidacy for positions under the new charter: A. Lynn Parmlay and L. C. Ohl for Commissioner of Public Affairs; A. L. Reed, for Commissioner of Public Works; W. T. Lisenby for Commissioner of Public Property; Justice S. G. Underwood, for member of the Board of Education.

MARKED BURGLAR.
Miss Mary Haggerty, aged 18, sister-in-law of Rev. J. D. Snyder, pastor of the English Lutheran Church, today told a story of being chloroformed and attacked by a masked bandit Monday evening at the home of Rev. Mr. Snyder. The police are investigating the alleged attack. Dr. R. H. Shipper, who was called shortly after the alleged visit of the robber, found that the girl had suffered no injury and that her pulse was normal.

According to the girl's story, she was alone in the house, and was startled by the breaking of a windowpane. Then the robber stepped in, ordered her to be quiet while he adjusted a chloroformed rag to her nose, and then threw her into a bedroom. He then proceeded to plunder the house, the girl stated. The minister returned home to find his house in disorder, but nothing of consequence taken.

MISSING HEIR.
An estate of more than a quarter of a million dollars awaits young Keith Dalrymple, who started from his Kansas home for Long Beach nine years ago. Jotham Bixby, Sr., father of Long Beach, is personally interested in a search for the youth. The inquiry regarding the missing heir came from Mrs. Susan Bixby Dimond of Downs, Kan.

POMONA.
HUNDREDS QUIT SCHOOL
RATHER THAN VACCINATE.

(LOCAL CORRESPONDENCE.)
POMONA, March 14.—Because of the order of Health Officer Holmes barring all pupils from the Central, Garey-avenue and high schools unless they had been vaccinated by Monday morning, there are about 275 pupils missing from the school rolls at the Garey and Central schools, the parents in most of the cases being opposed to vaccination.

The High School has not suffered much in attendance. The situation has developed a serious problem for the school board to meet, for not only does the absence of the pupils seriously demoralize the work in the schools, but it also means a loss in per capita revenue from the State school funds of about \$100 per day.

Many here express themselves as feeling that there is no necessity for the drastic orders issued, stating that as the one or two light cases are those of grown people, these should have been placed in quarantine in some remote part of the locality, as has been done on a previous occasion, rather than cause such seemingly unnecessary stir in the local school system.

By quick action Supt. Bennett has obtained permission by wire from the State Board of Health to transfer temporarily the unvaccinated pupils of the Central and Garey-avenue schools to the San Antonio, Kingsley and Lincoln school buildings and this transfer will save the city school system the loss of \$100 per day from State funds for per capita attendance during the existence of a couple of light adult cases of measles here.

Members of the board of trustees, who have met this morning, are studying the report of the health officer regarding the refusal of the pupils to be vaccinated.

Both Democrats and Republicans are stoutly declaring their assent to each other's plan. It was decided, it was stated, that the city should not be divided by the introduction of the signatures of the pupils to the school rolls.

HOODLUMS.
The theater district was a scene of night, and when the lights were turned on, the first thing that was seen was a group of hoodlums who had been seen in the district of the city.

Both Democrats and Republicans are stoutly declaring their assent to each other's plan. It was decided, it was stated, that the city should not be divided by the introduction of the signatures of the pupils to the school rolls.

POLO PLAYER
AUTO VICTIM.

(BY A. P. HIGHT WIER.)
SAN DIEGO, March 14.—Un-
able to negotiate a sharp curve,
an automobile driven by Walter
Hamlin Dupee, Coronado mil-
lionaire and expert polo player,
crashed into a railroad switch
at Coronado today. Dupee sus-
tained a broken collarbone in
the accident. With Dupee were
O. L. Merriam, Jr., of St. Louis
and W. R. McKee of Washing-
ton. Merriam and McKee were
slightly injured.

At Elsinore, March 5, in which one man was killed and twenty passengers seriously injured, was filed today by Hocker, Morris & Austin for Samuel Rome, asking for \$150,000.

The wreck victims left in Elsinore are doing fairly well. Mr. and Mrs. F. D. Morrison of Riverside are still at the Bundy Hotel. Mr. Morrison has not recovered, but it will be several weeks before Mr. Morrison is able to go home. John Hickey of Kingman, Ariz., is still here and is suffering severely. J. S. Hendrie of New York is getting along fairly well. Miss Ruth of Highmore, S. D., are still here. Mrs. Miller is in a critical condition, but her daughter has about recovered. It is feared Mrs. Miller will be crippled for life, as the ligaments of her legs were badly torn.

Maj. Bell of Goldfield, Nev., Mrs. Benoit and son and Mrs. Burr of Los Angeles, all at the Santa Fe Hospital, Los Angeles, are still bedfast. As is Conductor William Haynes and Paul Belits, the representative of the Western Wholesale Drug Company.

Conductor Haynes is one of the oldest men on the Santa Fe system and will be retired in a few months. Physicians believe he will never be himself again.

A mass meeting of citizens tonight protested to Santa Fe officials because of the condition of railroad service between Elsinore and Riverside. Dr. M. A. Schurz presided.

At the City Hall.

**SEVERS NEGOTIATIONS WITH
COUNTY SUPERVISORS.**

City Holographs.
The City Council yesterday con-
sidered the assessment for the opening
of twenty-third street between Fig-
ueira street and Monetta avenue.
The Council yesterday authorized
the Board of Public Works to enter
a contract for a rubbish salvage
season.
The City Engineer was instructed
today to prepare ordinances for
improvement of North Bunker Hill
avenue from California to Alpine,
and Montana street from Mohawk to
Elrio streets.
